BUILDING + HOME IMPROVEMENT

BEN KRUPINSKI BUILDER

Ben Krupinski Builder delivers exceptional craftsmanship, construction expertise and professionalism on every project we undertake on behalf of our clients. Since 1981, we have partnered with discerning homeowners and design professionals to create residential projects of the highest quality. Our portfolio represents a mix of architect-designed homes, historic home renovations and remodeling projects of both modest and expansive scale. What do all our clients have in common? Our clients enjoy a professional experience with an exceptional outcome.

Our team is current on technical advances, new materials, construction techniques and design trends. These capabilities are critical to collaborating with world-renowned design professionals on sophisticated projects that require our

well-honed problem-solving skills. At Ben Krupinski Builder, we pride ourselves as much on the long-term relationships we build with our clients and partners as much as we do on the superior quality of the projects we complete.

Ben Krupinski was born and raised in East Hampton, New York, and has been a member of the greater Hamptons business community for the past forty years. From Montauk to Manhattan, to Greenwich, Connecticut, he has earned a reputation for delivering outstanding results and earning the trust and respect of his clients in the process. Ben Krupinski Builder's commitment to excellence, the enduring relationships with its customers, the quality of its staff, and the talent, expertise and professional manner in handling all projects: all of these combine to have created the success Ben Krupinski has enjoyed these past four decades.
