In Bridgehampton, a Mid Ocean Drive listing with Douglas Elliman's Erica Grossman and Michaela Keszler asks \$52,000,000. **Built by Ben Krupinski Builder** with architect Barnes Coy, the over-10,000-square-foot home is situated on nearly 2.2 acres of coveted oceanfront, with an interior featuring eight bedrooms and 12 baths. There is also an open gourmet

kitchen and a large media room with a custom bar. The gym and game room lead to an infinity-edge gunite pool and deck, taking full advantage of the floor-to-ceiling glass doors and windows throughout. Outside, a kitchen and grilling station make outdoor living a breeze. There is even a private lighted walkway from your home in the dunes to the beach. 🌿
